## **INSTRUCTIONS**

The purpose of this annual survey is to provide the U.S. Department of Education and the Missouri Department of Elementary and Secondary Education (DESE) with current information on the location and number of children living in institutions for neglected or delinquent children. The information is needed for the formula that will be used to compute allocations for local educational agencies responsible for providing education for institutionalized neglected or delinquent children.

In some cases, education for children in a State-operated institution is provided by the local education agency. The institution should be included in this survey of children in local institutions unless there are specific arrangements for reimbursement for the State agency responsible for providing free public education.

A separate report should be completed for each institution that meets the requirements of the definitions in Section I, Item 2, of the survey form.

### **SECTION I - INSTITUTION AND SCHOOL DISTRICT**

- 1. Name and Address of Institution** – If the name and address of institution has changed, please contact our office at 573-751-2641.
- 2. Type of Institution** - Check only one box to identify the type of institution being reported. If an institution does not meet the definitions of institutions cited in the Title I regulations, it **SHOULD NOT BE INCLUDED** for purposes of this survey. Please note that the category of an institution should not change from year to year unless there has been an official change in the purpose for which the institution is operated. For example, if an institution is operated for the care of neglected children, but the majority of the children residing in the institution during October are children adjudicated to be delinquent, the institution should still be reported as an institution for neglected children until its charter or purpose is officially changed to show that it is an institution operated for the care of delinquent children. Consistency in reporting from year to year is necessary.  
**2A. Participation** – Indicate your intention to participate in the Title I federal educational program.
- 3. Name of Local (PUBLIC) School District**  
Enter the name of the school district in which the children residing in this institution attend school.
- 4. Legal or Administrative Basis for Designation of this type of Institution**  
State precisely the legal or administrative basis upon which this institution has been designated as an institution primarily for neglected children, or adjudicated delinquent children, or as a correctional institution housing children aged 5-17 inclusive. The legal or administrative basis could include one of the following: (a) basis for State license, (b) charter, (c) appropriate legal citations, (d) recognition by a welfare agency.
- 5. Caseload Data**
  - A. Enter the total number of children, ages 5-17, inclusive, who live in the institution for at least one day during a 30 consecutive day period, **at least one day** of which falls within the month of October. This data will be used in the Title I formula for the computation of grants. There must be documentation available to support the caseload data reported in this item since this count generates Title I funds and is subject to audit. If there is a 25% difference from the prior year, submit reason for the difference.
  - B. Enter the number of children enrolled in the public school program.
  - C. Enter the number of children enrolled in a nonpublic/private institution school program.
- 6. 30-Day Counting Period**  
Enter the dates of the 30-day time period that was chosen to report the caseload in 6A. The 30 consecutive day period chosen by your institution can be any 30 consecutive day window between September 2 and November 29 of the current year (ie. September 15 through October 14).
- 7. Poverty count of K-12 Students on October 1**  
Poverty data will be used to report low-income nonpublic schools. Teachers in low-income schools may be eligible for full or partial cancellation of loans they obtained under the Federal Loan Forgiveness programs. Public Schools already report this data.
  - A. Enter the number of K-12 students enrolled in the nonpublic school.
  - B. Enter the number of K-12 economically deprived students (Free/Reduced Lunch Count or same measure collected through a survey).

## SAMPLE WORKSHEET INSTRUCTIONS

### **PART I - INSTITUTION AND STATE AGENCY**

Enter the names of the institution and State agency. A separate form must be completed for each institution.

### **PART II - BASIS FOR ELIGIBILITY**

Respond “yes” or “no” to each of the three questions. If the answer is no to any one of these questions, the institution or community day program does not qualify.

- In question 1 a “**regular program of instruction**” means an education program (not beyond grade 12) in an institution or a community day program for neglected or delinquent children that consists of classroom instruction in basic school subjects such as reading, mathematics, and vocationally oriented subjects, and that is supported by non-Federal funds. Neither the manufacture of goods within the institution nor activities related to institutional maintenance are considered classroom instruction.
- In question 2 a “**State agency**” means an agency of State government responsible for providing free public education for children in institutions for neglected or delinquent children, community day programs for neglected or delinquent children, and adult correctional institutions.
- In question 3 an “**average length of stay**” is calculated by determining the length of time each child entering the institution stays and dividing that number by the total number of children passing through that institution during a given year. The average length of stay for all children in the institution must equal at least 30 days. An individual child in an institution, however, would not necessarily have to stay for 30 days.

### **PART III - TYPE OF INSTITUTION AND ENROLLMENT**

#### **Category**

Check the category that fits the definition of the institution. Do not report institutions that do not meet any of the four definitions.

#### **Enrollment**

For the category of institution checked, furnish the number of children under 21, through age 20, enrolled in a State-funded regular program of instruction on a date in calendar year 2015 specified by the State agency. The date specified by the State agency must be consistent for all institutions or community day programs operated by the State agency, and the date must represent a school day within calendar year 2015.

In order to be counted as enrolled, a child must be enrolled in a State-funded regular program of instruction for at least:

- 20 hours per week if in an institution for neglected or delinquent children or a community day program for neglected or delinquent children; or
- 15 hours per week if in an adult correctional institution.

### **PART IV - ADJUSTED ENROLLMENT TO REFLECT THE RELATIVE LENGTH OF THE STATE AGENCY’S ANNUAL PROGRAM**

Multiply the enrollment determined in Part III by the number of days in the year that the educational program operates. Divide that number by 180 to determine the adjusted enrollment.

### **PART V - CERTIFICATION**

The appropriate institution and State agency official should sign certifying that the information provided meets the requirements of Title I, Part D, Subpart 1, and is complete and accurate. (Note, because these data will generate Federal funds, they are subject to audit and must be supportable from documented records.)
